DAF

Driving A Future

A truck for every need

With a low tare weight for optimum payloads, sturdy design, powerful engines and a broad range of chassis and axle configurations, the LF and CF series are suitable for a multitude of applications, ranging from inner-city delivery to construction vehicles and intrastate haulage. This highly versatile range of vehicles offers significant benefits for operators and drivers alike.

Comfort, safety and efficiency are at the heart of the new design. From the comfortable cab and superior safety features to its sleek good looks, the new DAF series is designed to make life easier for the professional truck driver.

DAF trucks are extensively tested in Australian conditions and the new PACCAR engines combine excellent performance with low fuel consumption. In addition, DAF's innovative SCR technology delivers state-of-the-art emission standards with low cost operation.

Backed by the ALLRig parts and service dealer network, your wise investment is in safe hands nation-wide. DAF trucks are also supported by PACCAR Financial, a financial services provider dedicated to transport, providing custom financing for your customised truck.

With powerful partnerships such as these, the new DAF is a winner in every respect.

PACCAR MX Engine

LF45 rigid

Configuration	4x2
Cab	Day cab and Sleeper cab
