A PACCAR COMPANY DRIVEN BY QUALITY

DAF

Designed for Efficiency. Built for Distance. Driven by Comfort.

The New Generation DAF XF is purpose-built for the demanding interstate and long-distance operations Australia is known for, delivering exceptional fuel efficiency, superior driver comfort, and advanced safety systems to help operators maximise productivity on every journey.

DAF Future-Ready & Fleet-Focused

ENGINEERED FOR MAXIMUM PERFORMANCE

The New Generation DAF XF is engineered for maximum uptime and low total cost of ownership, delivering the reliability and performance Australian transport businesses depend on. From highly efficient PACCAR powertrains and advanced driver assistance systems to outstanding cab comfort and connected vehicle technologies, the XF helps you drive efficiency, safety, and profitability across every kilometre.

Supported by DAF's nationwide dealer network and expert technicians, the XF provides the confidence to keep your business moving, day after day.

The power of efficiency

In Australia, every kilometer counts. That's why New Generation DAF XF is engineered to maximise the return on every journey. Built on a proven foundation of transport efficiency, it combines advanced aerodynamics, optimised drivelines and the PACCAR MX-13 engine to deliver outstanding fuel economy and lower emissions. Renowned DAF reliability, the XF keeps your fleet on the road longer, reducing downtime and total cost of ownership.

True efficiency comes from refining every detail. From grille to rear axle, the DAF XF is engineered for performance and endurance in Australian conditions. Higher torque at lower revs, an efficient MX-13 engine and intelligent electronics work together to reduce fuel use. The result is measurable fuel savings, a lower cost per kilometre and greater productivity for your business.

ENGINE & DRIVELINE OPTIMISED FOR MAXIMUM RETURN

At the heart of the New Generation DAF XF is the multi-torque PACCAR MX-13 engine, delivering up to 530 hp with 2,700 Nm of torque delivering smooth and efficient power. Designed to produce high torque at low revs, it maximises performance while reducing fuel consumption across a wide range of demanding applications. Advanced combustion, optimised air management and smart auxiliary systems ensure output is precisely matched to driving conditions, lowering fuel use and delivering reliable, consistent performance every day.

The TraXon automated 16 speed gearbox is standard on the DAF XF and combine with Eco Mode further enhances efficiency by optimising gear shift strategies to achieve the best possible fuel economy and lower operating costs. Combined with an optimised driveline, the DAF XF delivers a powertrain that works seamlessly to maximise productivity, comfort and return on every kilometer.

AERODYNAMIC BY DESIGN

Aerodynamic efficiency is engineered into every aspect of the New Generation DAF XF. Developed using advanced simulation tools and extensive real world testing, the XF is designed to manage airflow with exceptional precision, reducing drag and improving overall vehicle performance. Its streamlined cab, integrated bodywork and refined front profile work together to enhance fuel economy, improve stability and reduce emissions across every journey.

From the front grille to the rear of the chassis, every detail has been optimised to minimise air resistance at highway speeds, while aerodynamic enhancements deliver savings of up to 7%. The result is a truck that works smarter for your business.

The power of comfort

Because every great journey starts with the driver. The New Generation DAF XF has been designed to make life on the road more comfortable, productive and rewarding. Its spacious cab, premium interior and intelligent driver focused technologies create an environment that feels less like a workplace and more like a home away from home. From interstate freight runs to Australia's longest transport routes, the XF delivers a smooth, quiet and refined driving experience that helps reduce fatigue and keep drivers performing at their best.

Optimised chassis and advanced climate control system work together to create a comfortable environment throughout the day, while the fully digital dashboard keeps essential information clearly in view. With excellent visibility, intuitive controls, generous storage and one of the most comfortable bunk areas in its class, the XF provides the ideal space to work, rest and recharge between journeys.

COMFORT THAT POWERS PERFORMANCE

The DAF XF delivers a smooth, car-like ride designed to minimise fatigue on long-haul journeys. A re-designed chassis, new front axle geometry and high efficiency shock absorbers work together to absorb road vibrations and maintain stability, creating a more controlled and comfortable drive.

Powered by the latest PACCAR MX-13 engine, operating at low RPM, cabin noise and vibration are kept to a minimum for a quieter, more relaxed environment. Working in harmony with the advanced TraXon automated transmission, gear shifts adapt seamlessly to changing road conditions to ensure consistent performance. The result is a refined driving experience that maximises comfort over long distances.

THE COMPLETE DRIVER ENVIRONMENT

The DAF XF driver workspace is designed around the driver, placing every control and key piece of information within easy reach. At its centre is a fully customisable 12-inch digital display, supported by an intuitive infotainment screen that integrates navigation and fleet connectivity.

A wide range of steering wheel adjustment and premium seating options, with heating and ventilation, allow drivers to create their ideal driving position for maximum comfort on every journey. When the driving day is done, the XF transforms into a comfortable living space. A spacious cab with a flat floor and generous standing height, a supportive bunk for quality rest, and smart storage, fridge and climate control, create a true home on the road, where every journey ends in comfort.

The power of safety

The DAF XF is engineered to deliver outstanding safety for drivers, cargo and other road users, helping Australian operators move with confidence in every environment. Combining a strong, energy absorbing cab structure with advanced technologies such as the DAF Digital Vision System, Vehicle Stability Control and Advanced Emergency Braking, the XF actively works to prevent incidents before they occur. Designed to reduce blind spots, improve visibility and support driver awareness, it enhances control on both open highways and busy urban roads.

SUPERB VISIBILITY

The DAF XF delivers excellent direct and indirect vision, with a panoramic windscreen design, low beltlines and optimised conventional mirrors carefully positioned to minimise blind spots. A dedicated corner view camera further enhances visibility on the passenger side, giving drivers greater confidence and awareness in tight urban environments and busy traffic conditions.

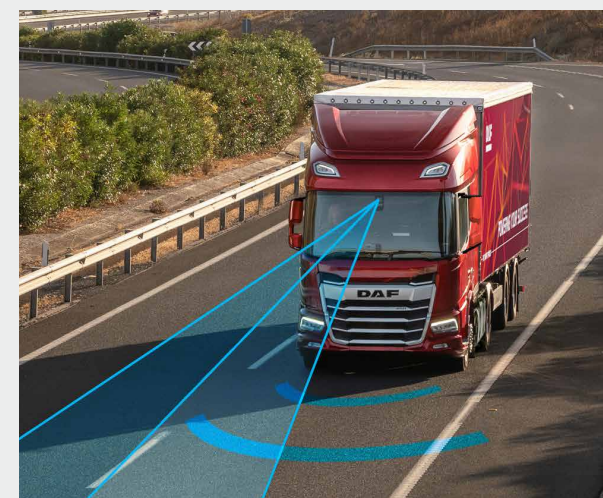

DRIVER-FOCUSED CONTROLS

Built on DAF's "hands on the wheel, eyes on the road" philosophy, every primary function is within easy reach via the steering wheel or column controls. From the TraXon transmission to digital displays and communication systems, intuitive ergonomics keep drivers focused, in control and operating efficiently at all times.

LOW BELTLINES & LARGE WINDSCREEN

Components are packaged behind the grille and below the dashboard to create the lowest possible beltlines for the windscreen and side windows.

Safety engineered from every angle

ADVANCED PROTECTION SYSTEM

The DAF XF combines intelligent active safety technologies, such as Advanced Emergency Braking, Lane Departure Warning and Vehicle Stability Control, with a strong, energy-absorbing cab structure. Integrated crash zones and driver protection systems work together to help prevent incidents and protect occupants if the unexpected occurs, minimising risk, downtime and total operating costs.

Discover the
New Generation DAF.
There's one for every need.

Alongside the versatile XF, DAF offers a complete range of trucks to suit every operation. The compact XB with its efficient 7-litre engine is ideal for urban environments, the XD, equipped with an 11-litre engine, delivers flexibility for distribution work, and the XG powered by a 15-litre engine provides maximum space, comfort and capability for long haul applications, ensuring the right balance of performance and efficiency across the entire line-up.

TOTAL TRANSPORT SOLUTION

Efficient transport takes more than just a great truck. DAF delivers a complete transport solution backed by a professional, nationwide dealer network. Our experts work with you to select the right vehicle for the job and offer tailored finance solutions for your business.

Once you're on the road, our commitment continues. We help keep your fleet performing at its best through customised Repair & Maintenance service plans and smarter, more efficient operations powered by PACCAR Connect. That's why DAF isn't just a great truck brand – we are the perfect partner for your business.

Knowledge is power

PACCAR Connect is an advanced fully integrated digital productivity and telematics platform with the power to simplify, streamline and optimise your transport operations.

SIMPLIFY YOUR BUSINESS

Whether you're behind the wheel, behind a desk, or in the workshop, PACCAR Connect will equip you and your team with the insights needed to make smarter decisions and work with maximum efficiency.

OPTIMISE EVERYTHING

With PACCAR Connect you can quickly analyse the performance of your overall operation, or drill down to specific trucks. Routes across multiple vehicles and days are displayed on a single screen. PACCAR Connect makes it that simple.

WORK SMARTER NOT HARDER

Turn the key and PACCAR Connect goes to work, constantly monitoring your truck's critical systems. Onboard fault detection is displayed on the dashboard, enabling informed, on-the-spot decision-making. Peace of mind, that's what you can expect with PACCAR Connect.

STREAMLINE COMPLIANCE

PACCAR Connect streamlines compliance by syncing critical data. It works with Gearbox to automate service scheduling, parts tracking, training, and work orders – so nothing gets missed. Integration with Logmaster provides an NHVR-accredited Electronic Work Diary (EWD) that's compliant nationwide. Real-time asset and odometer updates save time, reduce manual entry, and improve reporting accuracy.

ENHANCE SAFETY

PACCAR Connect lets operators configure advanced safety and performance features. Triggering instant alerts for emergency braking or rollover events and syncing with the cloud for real-time reporting, hazard prevention, and integrated compliance. Digital prestart checklists, auto-filled vehicle details, and mobile inspections make it easy for drivers to escalate issues on the go – keeping every vehicle safer and road-ready.

AUTOMATE FUEL TAX CLAIMS

In partnership with KPMG, PACCAR Connect facilitates fuel tax credit claims using real-time data to identify on and off-road activity. Claims are pre-approved by the ATO, so refunds are processed and in your account with a minimum of fuss – a valuable feature accessible to any transport business.

KEEP EVERYONE INFORMED

The best network just got smarter. Your DAF dealer now has access to vehicle data, enabling faster, better-informed roadside assistance. Minor issues can be scheduled into regular maintenance – maximising uptime for every truck.

PACCAR Connect is proven proprietary technology, available exclusively for use on DAF Trucks. Embedded at the time of manufacture, its unique protocols and deep integration with major vehicle systems deliver capabilities beyond those of aftermarket solutions.

A total transport solution

Transport efficiency goes beyond having the ideal truck. That's why DAF Trucks Australia provides a comprehensive transport solution. Backed by a trusted professional team and a wide dealer network, we can help you choose the right truck, offer financing support, and keep your fleet in top condition.

PACCAR Australia

Australia's best Dealer network means there's always a DAF representative nearby ready to provide expert support. The in-depth knowledge of DAF mechanics and the exclusive use of genuine DAF and PACCAR parts, maximise your uptime for the life of the truck.

PACCAR ASSIST

Each PACCAR dealership is on permanent 24-hour standby, ready to come to your aid in the event you need assistance. One call to the dedicated 1800-PACCAR number is all it takes.

PACCAR FINANCIAL

Dedicated in every sense to the Australian trucking industry, PACCAR Financial's innovative solutions provide the flexibility to purchase the trucks and trailers you need to keep your business running smoothly.

PACCAR PARTS

In addition to maintaining an extensive inventory of DAF parts and accessories, the PACCAR Parts distribution centres provide daily deliveries to every dealership in Australia. Whatever your truck servicing requirements, we can get the parts you need, to where you need them.

PacLease

PacLease helps fleet operators achieve their business goals through short and long-term rental and leasing solutions, including value-added services like telematics, preventative maintenance, and 24/7 Roadside Assistance.
